Reasons For Allowance

1. The following is an examiner's statement of reasons for allowance:

Claims 1,16 and 20-22 are allowable over the prior art of record because the teachings of the references taken as a whole do not teach or render obvious the combination set forth, including that a latch assembly includes a keeper with a head portion that includes a catch and a lock release projection (Claims 1,20 and 22) and that a dishwasher comprises a latch assembly that has a keeper coupled to a handle wherein the handle rotates to a first direction and the keeper rotates to a second direction opposed the first direction (Claims 16 and 21).

Lundblade (US 4,502,715) discloses a latch assembly comprising a handle (29) and a handle retained (58). The handle is connected to the handle retainer.

A keeper (30) is slidably coupled to the handle such that the handle rotates in a first direction and the keeper rotates in a second direction opposite to the first direction.

However, Lundblade fails to disclose that latch assembly includes a keeper with a head portion that includes a catch and a lock release projection. Lundblade discloses that the head portion includes a catch but the lock release projection is at the end of the keeper, not at the head portion. Also, the latch assembly is not presented in combination with a dishwasher.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
